TRADITIONAL PORCELAIN & CERAMICS

Celebrating tradition: the timeless elegance of italian porcelain surfaces

The company

At ICG ITALIA, we don't merely offer Italian porcelain surfaces; we embody the essence of Italian tradition. Our commitment extends beyond fast fashion – it's about delivering timeless and classic Italian appeal that resonates across generations. Our **luxurious ceramics** are meticulously crafted in the picturesque town of Sassuolo, nestled within Italy's Modena province. **This region boasts a rich heritage of artisanal craftsmanship, and we take immense pride in producing our surfaces there.** We are proud heirs of Italian craftsmanship and passionate interpreters of the "Made in Italy" legacy.

ICG ITALIA is present in Design Hub Cities across the U.S. Orange County, San Francisco, Chicago and New York

High-end surfaces

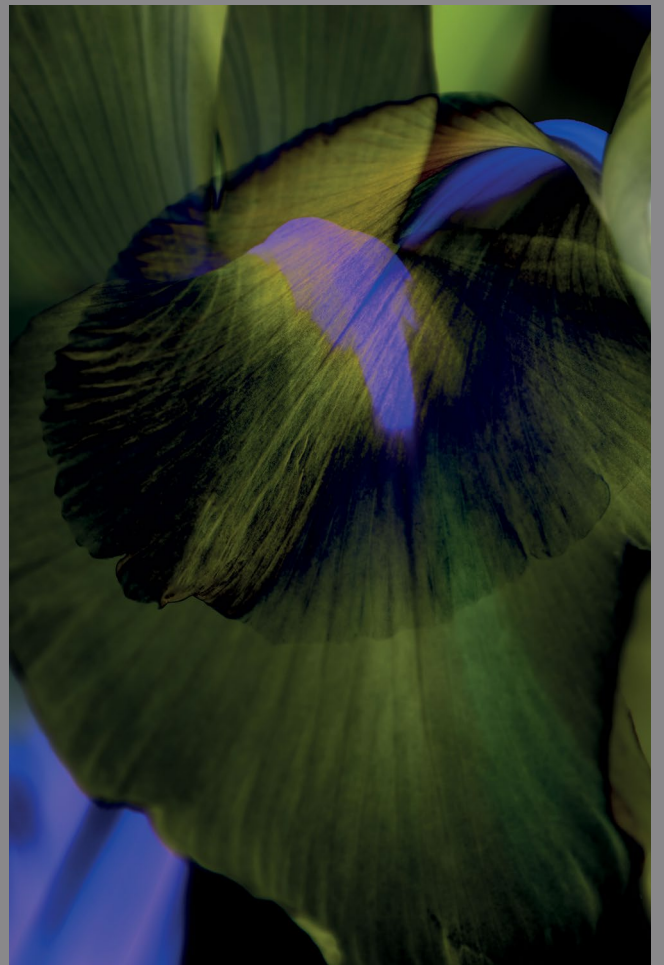

Our expertise in high-end porcelain surfaces is multifaceted. **Manufactured in Italy**, where the finest porcelain is found, our slabs embody a **legacy of craftsmanship**. But it doesn't stop there. We integrate cutting-edge technologies into our products such as **Design Your Slab (DYS)**, empowering customers to imprint custom designs onto our large-format surfaces, and **4D technology**, which seamlessly infuses veining, patterns, and color variations throughout the material. These innovations, combined with an extended list of benefits, position us as providers of exceptional solutions in the market. **When you choose our porcelain, you're not just selecting a surface; you're embracing a legacy of sophistication and quality.**

Sustainable Excellence: ICG Italia's green building philosophy

Economy=Ecology

We firmly believe that ecological responsibility and economic viability go hand in hand. Our production philosophy revolves around sustainable architecture, creating ceramics that excel in both technical and aesthetic performance while adhering to green building principles. Since our company's inception, environmental protection and pollution prevention have been woven into our corporate DNA. These principles drive our ambitious goals, setting us apart globally.

The phrase 'Economy =Ecology' encapsulates our ethos – a concept championed by our founder in the 1970s when ecological awareness was nascent. Today, it remains etched onto our production lines as a constant reminder. Whether our ceramic and porcelain surfaces grace residential kitchens or iconic commercial spaces, we honor nature. Sustainability isn't just a choice; it's an imperative. By marrying ecology and economy, we pave the way for a greener, more prosperous future – one surface at a time.

Armonie Collection

The project Armonie collection is an important development in the company's research into the potential of materials to inspire and create stylistic harmony through the juxtaposition of different materials. Four types of fine oak, as well as four types of stone and two types of terracotta, provide the inspiration for a wide and varied product range that allows for ever-changing and original interpretations. Let your intuition guide you in choosing a specific look or in combining the many versatile options available. The result is a highly versatile design, thanks to the availability of different formats and finishes that allow for sophisticated customization in a variety of settings.
