Celebrating tradition: the timeless elegance of Italian porcelain surfaces

The company

At ICG ITALIA, we don't merely offer premium porcelain and ceramic surfaces; we embody the essence of Italian tradition. Our commitment extends beyond fast fashion - it's about delivering timeless and classic Italian appeal that resonates across generations. Rooted in Sassuolo's legacy of ceramic artistry, our collections embody timeless elegance and uncompromising craftsmanship, complemented by select designs produced in our American facility nestled in Tennessee's Smoky Mountains – each piece a testament to Italian-inspired heritage and enduring quality.

High-end surfaces

Our expertise in high-end porcelain surfaces is multifaceted. Manufactured at our state-of-the-art plants in Italy and in the U.S., our slabs embody a legacy of craftsmanship. But it doesn't stop there. We integrate cutting-edge technologies into our products such as Design Your Slab (DYS), empowering customers to imprint custom designs onto our large format surfaces, and 4D technology, which seamlessly infuses veining, patterns, and color variations throughout the material. These innovations, combined with an extended list of benefits, position us as providers of exceptional solutions in the market. When you choose our porcelain, you're not just selecting a surface; you're embracing a legacy of sophistication and quality.

Sustainable Excellence: ICG Italia’s Green Building Philosophy

We firmly believe that ecological responsibility and economic viability go hand in hand. Our production philosophy revolves around sustainable architecture, creating ceramics that excel in both technical and aesthetic performance while adhering to green building principles. Since our company’s inception, environmental protection and pollution prevention have been woven into our corporate DNA. These principles drive our ambitious goals, setting us apart globally.

The phrase **‘Economy = Ecology’** encapsulates our ethos – a concept championed by our founder in the 1970s when ecological awareness was nascent. Today, it remains etched onto our production lines as a constant reminder. Whether our ceramic and porcelain surfaces grace residential kitchens or iconic commercial spaces, we honor nature.

Sustainability isn’t just a choice; it’s an imperative. By combining ecology and economy, we pave the way for a greener, more prosperous future - one surface at a time.

“Sustainability isn’t
just a choice; it’s an
imperative”

Made in USA for ICG Italia

The collection A U.S.-made porcelain stoneware collection with classic marble effects — an icon of refinement and uniqueness in the world of decorative stones.

Renowned for its distinct veins that unfold in a harmonious contrast of purity and movement, these surfaces pay homage to the exclusive look of Carrara marble. This marble is celebrated not only for its spectacular aesthetic, featuring veins that range from grey to gold, but also for its historical presence in the most opulent and sumptuous architecture and sculptures.

These marble inspired qualities make the American Artisan collection a sought-after design element, capable of transforming any space into a living work of art.
