Celebrating tradition: the timeless elegance of italian porcelain surfaces

The company

At ICG ITALIA, we don't merely offer Italian porcelain surfaces; we embody the essence of Italian tradition. Our commitment extends beyond fast fashion – it's about delivering timeless and classic Italian appeal that resonates across generations. Our **luxurious ceramics** are meticulously crafted in the picturesque town of Sassuolo, nestled within Italy's Modena province. **This region boasts a rich heritage of artisanal craftsmanship, and we take immense pride in producing our surfaces there.** We are proud heirs of Italian craftsmanship and passionate interpreters of the "Made in Italy" legacy and American-made porcelain.

ICG ITALIA is present in Design Hub Cities across the U.S. Orange County, San Francisco, Chicago and New York

High-end surfaces

Our expertise in high-end porcelain surfaces is multifaceted. **Manufactured in Italy**, where the finest porcelain is found, our slabs embody a **legacy of craftsmanship**. But it doesn't stop there. We integrate cutting-edge technologies into our products such as **Design Your Slab (DYS)**, empowering customers to imprint custom designs onto our large-format surfaces, and **4D technology**, which seamlessly infuses veining, patterns, and color variations throughout the material. These innovations, combined with an extended list of benefits, position us as providers of exceptional solutions in the market. **When you choose our porcelain, you're not just selecting a surface; you're embracing a legacy of sophistication and quality.**

Sustainable Excellence: ICG Italia's green building philosophy

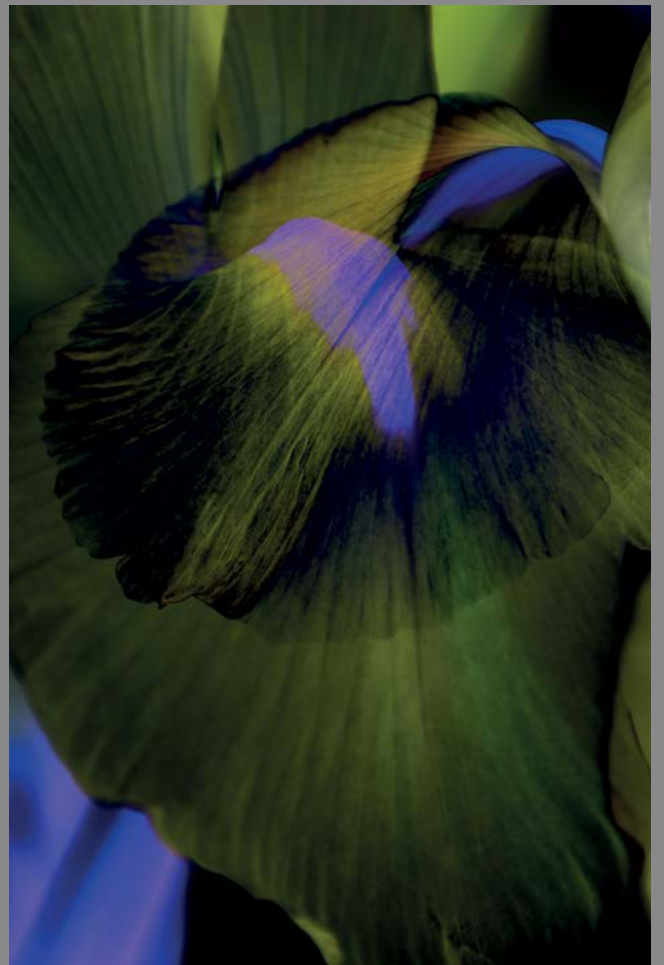

Economy=Ecology

We firmly believe that ecological responsibility and economic viability go hand in hand. Our production philosophy revolves around sustainable architecture, creating ceramics that excel in both technical and aesthetic performance while adhering to green building principles. Since our company's inception, environmental protection and pollution prevention have been woven into our corporate DNA. These principles drive our ambitious goals, setting us apart globally.

The phrase 'Economy =Ecology' encapsulates our ethos – a concept championed by our founder in the 1970s when ecological awareness was nascent. Today, it remains etched onto our production lines as a constant reminder. Whether our ceramic and porcelain surfaces grace residential kitchens or iconic commercial spaces, we honor nature. Sustainability isn't just a choice; it's an imperative. By marrying ecology and economy, we pave the way for a greener, more prosperous future – one surface at a time.

American Artisan Collection

The project This porcelain stoneware with classic marble effects is an icon of refinement and uniqueness in the world of decorative stones.

Renowned for its crystalline beauty and its distinct veins that unfold in a harmonious contrast of purity and movement, these surfaces pay homage to the exclusive marble of Carrara. This marble is celebrated not only for its spectacular aesthetic, featuring veins that range from grey to gold, but also for its historical presence in the most opulent and sumptuous architecture and sculptures.

These marble inspired qualities make the American Artisan collection a sought-after design element, capable of transforming any space into a living work of art.

Pietra Di Basalto Collection

The project Pure, simple sophistication. The natural beauty of stone faithfully re-imagined and combined with the technical performance of porcelain stoneware, to imbue any room with genuine refined charm.

The linearity and original look of basalt stone has been re-imagined in this uncompromising, richly shaded collection. Large format porcelain stoneware creates dynamic surfaces with an abundance of unique, natural details. With 5 imperceptibly shaded colors and distinctive streaks, Pietra Di Basalto combines the versatility of porcelain stoneware with the warmth and layers of natural stone to create a welcoming yet elegant ambiance.

Urban Collection

The project We live surrounded by ideas. The precision of architecture, which lets us change the horizon and make it our own; the power of design, capable of creating a space starting from a unique perspective. The cement of the sure, unchanging foundations beneath our feet, on which the city rests, and our lives unfold. It's from the streets, from these glass and iron horizons, from the character of cement and dynamism of city life that Urban is born.
