TRADITIONAL PORCELAIN

Celebrating tradition: the timeless elegance of italian porcelain surfaces

The company

At ICG ITALIA, we don't merely offer Italian porcelain surfaces; we embody the essence of Italian tradition. Our commitment extends beyond fast fashion – it's about delivering timeless and classic Italian appeal that resonates across generations. Our **luxurious ceramics** are meticulously crafted in the picturesque town of Sassuolo, nestled within Italy's Modena province. **This region boasts a rich heritage of artisanal craftsmanship, and we take immense pride in producing our surfaces there.** We are proud heirs of Italian craftsmanship and passionate interpreters of the "Made in Italy" legacy.

ICG ITALIA is present in Design Hub Cities across the U.S. Orange County, San Francisco, Chicago and New York.

High-end surfaces

Our expertise in high-end porcelain surfaces is multifaceted. **Manufactured in Italy**, where the finest porcelain is found, our slabs embody a **legacy of craftsmanship**. But it doesn't stop there. We integrate cutting-edge technologies into our products such as **Design Your Slab (DYS)**, empowering customers to imprint custom designs onto our large-format surfaces, and **4D technology**, which seamlessly infuses veining, patterns, and color variations throughout the material. These innovations, combined with an extended list of benefits, position us as providers of exceptional solutions in the market. **When you choose our porcelain, you're not just selecting a surface; you're embracing a legacy of sophistication and quality.**

Sustainable Excellence: ICG Italia's green building philosophy

Economy=Ecology

We firmly believe that ecological responsibility and economic viability go hand in hand. Our production philosophy revolves around sustainable architecture, creating ceramics that excel in both technical and aesthetic performance while adhering to green building principles. Since our company's inception, environmental protection and pollution prevention have been woven into our corporate DNA. These principles drive our ambitious goals, setting us apart globally.

The phrase 'Economy = Ecology' encapsulates our ethos – a concept championed by our founder in the 1970s when ecological awareness was nascent. Today, it remains etched onto our production lines as a constant reminder. Whether our ceramic and porcelain surfaces grace residential kitchens or iconic commercial spaces, we honor nature. Sustainability isn't just a choice; it's an imperative. By marrying ecology and economy, we pave the way for a greener, more prosperous future – one surface at a time.

Dallas Collection

The project Dallas draws inspiration from the authentic character of traditional natural stone surfaces, translating it into a contemporary, architecture-driven design language. The porcelain surfaces feature a natural finish and a softly structured texture that express the qualities of their mineral origins.

Fine veining, subtle structures, and refined surface detailing introduce depth, elegance, and a distinct tactile dimension. The material balances strength and harmony, enabling versatile design solutions across diverse spatial concepts.

Dallas establishes a premium solution for timeless, material-driven interiors and exteriors, supporting coherent applications in both residential and commercial architectural environments.

DISCLAIMER

The processing of natural raw materials, combined with the use of leading-edge patented production techniques, makes it possible to obtain high-tech materials characterized by typical full-body effects, a feature that has always been the exclusive hallmark of quarried marble and stone. Chromatic variations, veining and speckling are thus prized characteristics of ICG materials, designed and produced to recreate the fascination of exclusive floorings, that reveal the randomness and beauty of natural materials. On the basis of the above statements, the color references in the catalogs and samples are to be considered as approximate.

The surfaces of the ICG collections are frost-proof and resistant to chemical attack. For this reason, they are a guarantee of stability and durability over time, suitable for any use and destination, both interior and exterior, from the most classic and refined, to the most spacious and intensely utilized ones.

The colors and appearance features of the products are as close as possible to reality, within the limitation of the printing process.

ICG keeps the right to change all the mentioned items without notice and declining any responsibility for direct or indirect damage caused from these changes.
